Allivictus Spray Mouth Spray

The small bottle with a mechanical atomizer contains ALLICIN ACTIVE COMPLEX™ – AAC™

Ingredients: Allium sativum (garlic) 60 %, Alcohol 40 %

Description: Allivictus Spray is a natural product for oral hygiene, dental and gum care. It offers effective relief from a sore throat, from hoarseness and from various inflammatory processes. It helps suppress occurrence of undesirable microorganisms and has favourable effects on the skin as well. The Spray is made exclusively of Czech and Slovak ingredients with significant biological effects. Allivictus Spray is outstanding for its high content of sulfurous substances, vitamins, minerals, amino acids and other ingredients beneficial for the body. Its spray form is suitable for oral application even as a supportive remedy during antibiotic treatment.

Dosage: Apply directly on affected areas.

When used orally, apply 2 to 3 squirts three times a day. Shake before use.

Instructions for Use: Put the applicator on the bottle, insert the applicator tube in your mouth, aim its tip at the affected area and press the top of the atomizer while your mouth is shut. Do not inhale. The time of use is unlimited, use until your symptoms subside completely.

Interaction: Allivictus Spray may be used along with other medicaments as it does not adversely influence their effects. On the contrary, it helps alleviate their negative impacts. The Spray may be used by pregnant and nursing women. Suitable also for diabetics.

Adverse effects: None.

Caution: Rinse out the applicator thoroughly with warm water (for sanitary and mechanical reasons) after each use. Do not inhale, avoid contact with eyes. The product does not affect activities requiring increased attention such as driving, operating various machines or work at a height.

Minimum Durability until the date indicated on the package.

Store in a cool and dark place, preferably in the refrigerator.
